TAMBOURCLAD™

Modern, Solid Wood Surfaces

Scallop | Natural Oak

Tambourclad™ offers your space a polished, clean look with a modern feel. The natural wood warms up and breathes life into your space, and is versatile enough to pair with any style or palette. Each piece is back-cut to account for shrinkage and expansion, enabling the cladding to sit flush against the wall. Tongue-and-groove joints ensure proper alignment and easy installation. From accent walls to entire spaces, *Tambourclad™* adds character to any room while highlighting the intrinsic beauty of the natural materials. Let *Tambourclad™* add an element to your space that will never go out of style.
